

Coigach Community Fund

The wind turbine continues to bring an income to Coigach, and we now have several funds for individual members of the community to apply for, along with grants for local organisations. This year we have set up the Coigach Energy Fund to help people with the steeply rising fuel prices. For details of all the funds, please email us at info@coigachcommunity.org.uk or speak to Julia or Ann Marie.

During the year 2021 – 2022 CCDC donated roughly £4,000 to individual members of the community and over £14,000 to community organisations.

Individuals have benefitted from the fund in several ways: children have had the chance to experience outdoor learning; people have invested in e-Bikes; art courses have been attended... We were delighted to issue a 'Hello Baby' grant of £250 during this year as well.

Organisations we have helped include Visit Coigach, the Achiltibuie Playing Field group, and Achiltibuie Primary School who received a grant for their art exhibition. A grant of £5000 helped Highland Community Broadband upgrade the system to provide an improved service to Coigach.

Coigach Heritage received a grant towards developing the Old Drill Hall, with a view to creating a Heritage Hub with a café. The group now has charitable status, has undergone a governance review, and now has a three-

year strategic plan in place. We look forward to seeing how things progress!
